

SUSTAINABILITY POLICY

THS Armada actively works to minimize the organisation's environmental impact. The organisation strives to make environmentally conscious choices regarding all purchases, transportation and handling waste.

HOW DOES THS ARMADA WORK WITH ENVIRONMENTAL SUSTAINABILITY?

WASTE MANAGEMENT

Minimize the waste volume by restricting handouts from companies participation on the fair - no flyers policy

Optimize the order volume in order to prevent unnecessary waste

Minimize the amount of disposables used by companies and students on the fair by encouraging companies to market themselves in a more sustainable way without handouts

DIGITALISATION

Minimize the amount of hard print in all communication and marketing

If possible, remove dates from merchandise so it can be reused, stickers, labels etc.

Improve our digital platforms in order to increase its use

Develop the applications and our webpage in order to allow companies to put more information online rather than using flyers and give-aways

CONSUMPTION

Take environmentally conscious decisions regarding food and beverage, eg, an all vegetarian fair and banquette

Prioritize fairtrade and organic products in all purchases, eg. clothes used in the organisation is both fairtrade and organic

Carpets and signs used for the fair is stored in a safe way in order to be reused

CARBON OFFSET

A no flyers-policy for the participating companies

The participating companies have the option to climate compensate their visit.

TRANSPORTATION

Armada offers exhibiting companies to use Armada Transport in order to reduce the GHG emissions.
