AP-FONDERNA

The Swedish National Pension Funds are knowledge driven organizations offering both management and employees a stimulating working environment. In close collaboration with external parties, as well as coworkers, you have the opportunity for personal development and building your specialist knowledge.

Fundamental and quantitative analysis of risk and sustainability is well integrated within the investment process, contributing to long term first class returns.

The funds are between themselves 330 employees with a total AUM of roughly 2'700 billion SEK.

ARLA FOODS

We're the farmer-owned dairy cooperative that have become the fourth largest dairy company in the world and the largest producer of organic dairy.

We've got a strong strategy for growing our business and one for growing our colleagues too. In our graduate programs one rotates in business areas and geographical locations for a fast-track development and career within Arla.

Our 5-year plan includes 4 billion EUR investments focused on direct and indirect sustainability initiatives and we've created the world's largest externally validated climate data sets from dairy farms to lead the way.

ASSA ABLOY GROUP

Every day, we help billions of people move through a safer, more open world with ease. If you've ever walked through an automatic door, stayed in a hotel, or gone through passport control, you've probably used one of our products or services.

We are specialists in access essentials: like mechanical and digital locks, cylinders, keys, tags, security doors and automated entrances. At the same time, we are creating and embracing new technology – like biometrics, mobile security, and trusted identities. We stay at the forefront, so whatever you need, you're in safe hands.

CONMORE INGENJÖRSBYRÅ AB

We are the engineering consulting company that is extra passionate about innovation and product development. In our many exciting projects, we help with mechanical design, project management, electronics and software development. During our 30 years as a development partner for large international companies, we have learned a lot. That journey continues, with every new assignment. With us, each employee receives a personal development plan and is offered assignments accordingly. Every year we do many social activities where we hang out, discuss and exchange experiences.

COWI

Together with customers, partners and colleagues, we shape a future where people and societies grow and flourish. We do that by co-creating sustainable and beautiful solutions that improve the quality of life for people today and many generations ahead. Our starting point is gaining a deep understanding of our customers, their aspirations and concerns. This is what sets us apart and how we deliver long-term value. Located in Scandinavia, the UK, North America and India, we currently number 6,900 people, who offer our expertise in engineering, architecture, energy and environment.

HUAWEI

Huawei headquarters may be located in China, but our company has over 200 000 employees in 170 countries across all continents! In 2000, Huawei established the first overseas R&D office in Sweden. Huawei Technology Sweden is continuously growing and with 300+ R&D engineers located in Stockholm, Gothenburg and Lund we are trailblazing the path to future 5G and beyond with focus on standardization, research and pre-development. Through its participatory corporate culture, input from employees and partners of all nationalities shapes Huawei on a daily basis.

ACADEMIC WORK

Academic Work är ett av de största bemannings- och rekryteringsföretagen på tjänstemannasidan i Sverige. Vi hjälper akademiker - young professionals som fortfarande studerar eller som är i början av karriären att hitta sitt drömjobb. Academic Work startades av tre studenter som levde sin egen affärsidé. Nu är vi en internationell verksamhet där young professionals påbörjar sina karriärer, varje dag.

AECOM

AECOM is the world's trusted infrastructure consulting firm, partnering with clients to solve the world's most complex challenges and build legacies for generations to come.

At AECOM, we believe infrastructure creates opportunity for everyone – uplifting communities, improving access and sustaining our planet. We're committed to managing our business with the utmost responsibility and to always strive for better – be that reducing emissions, creating social value or diversifying our senior leadership and workforce.

In Sweden we focus on building up infrastructure and providing extensive environmental services. From our main office in Stockholm, we coordinate both areas, and have at our disposal local experts and international specialists.

AWA SWEDEN AB

Discover Your Future in Intellectual Property (IP)!

AWA is a leading consultancy firm in IP offering you a unique work environment with approx. 400 employees at 22 offices spread over Europe and Asia. In 2021, our turnover was SEK 944 million. AWA's Trainee Program for prospective patent attorneys and future experts in IP is the only one of its kind in Europe (or in the world). We welcome candidates in the fields of e.g. computer technology, electrical engineering and technical physics who wish to work with the most exciting innovative companies together with highly qualified and dedicated colleagues.

The Patent Attorney profession is ideal if you want to work in the borderland between technology, law and business, enjoy diving into different - new - technologies, like creative writing and prefer an international orientation. We believe that tomorrow is today's emerging business - rising up from untapped potential within established industries and start-ups. No matter the size or industry, we help our clients create business out of their ideas and innovations.

- Visit our stall to learn more about AWA, IP and our Trainee Program!

ROSLAGSVATTEN

Roslagsvatten ensures that 130,000 people get clean drinking water every day. We expand and maintain the pipe networks so that it lasts a long time to come and we purify the used wastewater. We are active in Österåker municipality, the city of Vaxholm, Knivsta municipality, Vallentuna municipality and Ekerö municipality. In Österåker and Vaxholm, we also take care of the waste and run the recycling centers. For Täby, we handle invoicing of water and sewage services and handle customer issues. Our model means that all municipalities that use Roslagsvatten are also partners in the company.

SIEMENS ENERGY AB

Siemens Energy works with its customers and partners on energy systems for the future, thus supporting the transition to a more sustainable world. With its portfolio of products, solutions and services, Siemens Energy covers almost the entire energy value chain – from power generation and transmission to storage. The portfolio includes conventional and renewable energy technology, such as gas and steam turbines, hybrid power plants operated with hydrogen, and power generators and transformers. More than 50 percent of the portfolio has already been decarbonized.

TRAFIKVERKET

Trafikverket is responsible for maintaining and upgrading tens of thousands of miles of railways, roads, and ferry connections. At the same time, we are developing the entire infrastructure through innovative solutions that contribute to reaching both the climate goals and vision zero. But above all, we make sure to shorten the distances between people and companies. The Swedish Transport Administration works every day, around the clock, to make it work. We plan, build and maintain state roads and railways and are responsible for long-term planning of road traffic, rail traffic, shipping, and aviation. We are an organization with over 150 different professions.

UBISOFT STOCKHOLM

Ubisoft's 20,000 team members, working across more than 30 countries around the world, are bound by a common mission – to enrich players' lives with original and memorable gaming experiences. Ubisoft is an equal opportunity employer that believes diverse backgrounds and perspectives are key to creating worlds where both players and teams can thrive and express themselves. If you are excited about solving game-changing challenges, cutting-edge technologies, and pushing the boundaries of entertainment, we invite you to join our journey and help us create the unknown.

We're also a distributed workforce with a hybrid setup, and in 2023 the Stockholm studio's main hideout will be at Fenix Stockholm, a re-imagined modern office in the inner-city district of Hagastaden.
